

PART 1 INTRODUCTION TO HUMAN NUTRITION

1 Nutrition and Health, 2

Eleanor D. Schlenker

New Challenges for Health Professionals, 2

The Science of Nutrition, 6

Nutrition Policy and National Health Problems, 11

Health Promotion, 11

Nutrition Guides for Food Selection, 12

A Safe and Healthy Food Supply, 20

Personal Perceptions of Food, 20

2 Digestion, Absorption, and Metabolism, 26

Eleanor D. Schlenker

HUMAN BODY: THE ROLE OF NUTRITION, 26

Food: Change and Transformation, 26

Importance for Health and Nutrition, 26

The Gastrointestinal Tract, 27

Principles of Digestion, 28

MOVEMENT OF FOOD THROUGH THE DIGESTIVE TRACT, 29

Mouth and Esophagus: Preparation and Delivery, 30

Stomach: Storage and Initial Digestion, 32

Small Intestine: Major Digestion, Absorption, and Transport, 34

Colon (Large Intestine): Final Absorption and Waste Elimination, 37

Gastrointestinal Function and Clinical Applications, 39

Health Promotion, 42

Metabolism, 43

3 Carbohydrates, 47

Eleanor D. Schlenker

The Nature of Carbohydrate, 47

Classification of Carbohydrates, 48

Importance of Carbohydrates, 52

Functions of Carbohydrates, 53

Recommended Intake of Carbohydrate, 53

Carbohydrates and Oral Health, 54

Imbalances in Carbohydrate Intake, 55

Fiber: The Nondigestible Carbohydrate, 57

Health Promotion, 59

Functional Foods: Special Carbohydrate Foods, 59

Digestion-Absorption-Metabolism Review, 61

4 Lipids, 65

Eleanor D. Schlenker

Lipids in Nutrition and Health, 65

Physical and Chemical Nature of Lipids, 66

Fatty Acids and Triglycerides, 66

Food Lipids and Health, 69

Lipid-Related Compounds, 73

Health Promotion, 75

Digestion-Absorption-Metabolism Review, 76

5 Proteins, 81

Eleanor D. Schlenker

Physical and Chemical Nature of Proteins, 81

The Building of Proteins, 82

Functions of Protein, 84

Protein and Nitrogen Balance, 85

Protein Quality, 87

Protein Requirements, 88

Protein Intake, 91

Health Promotion, 92

Vegetarian Diets, 92

Digestion-Absorption-Metabolism Review, 96

6 Vitamins, 101

Eleanor D. Schlenker

Vitamins: Essential Nutrients, 101

FAT-SOLUBLE VITAMINS, 102

Vitamin A, 102

Vitamin D, 107

Health Promotion, 111

Vitamin E, 111

Vitamin K, 113

WATER-SOLUBLE VITAMINS, 115

Vitamin C (Ascorbic Acid), 115

THE B VITAMINS, 119

Deficiency Diseases and Vitamin Discoveries, 119

- Coenzyme Role, 119
 Thiamin, 119
 Riboflavin, 120
 Niacin, 122
 Pantothenic Acid, 124
 Biotin, 125
 Vitamin B₆ (Pyridoxine), 125
 Folate, 126
 Vitamin B₁₂ (Cobalamin), 129
- 7 Minerals and Water, 137**
Eleanor D. Schlenker
 Minerals in Human Nutrition, 137
 MAJOR MINERALS, 139
 Calcium, 139
 Phosphorus, 143
 Sodium, 146
 Health Promotion, 147
 Potassium, 148
 Magnesium, 150
 Chloride, 151
 Sulfur, 151
 ESSENTIAL TRACE ELEMENTS, 152
 Trace Elements: The Concept of
 Essentiality, 152
 Iron, 152
 Iodine, 158
 Zinc, 161
 Copper, 162
 Manganese, 162
 Chromium, 162
 Selenium, 163
 Molybdenum, 163
 Fluoride, 163
 Other Trace Elements, 163
 WATER AND ELECTROLYTES, 163
 Body Water, 166
 Water Requirements, 167
 Forces Controlling Water Distribution, 167
 Influence of Electrolytes on Water
 Balance, 169
 Influence of Plasma Proteins on Water
 Balance, 169
 Influence of Hormones on Water
 Balance, 169
- 8 Energy Balance, 174**
Eleanor D. Schlenker
 The Human Energy System, 174
 Total Energy Requirement, 177
 Body Composition: Fatness and
 Leanness, 182
 Health Promotion, 186
 Fatness, Thinness, and Health, 188
- PART 2 COMMUNITY NUTRITION
 AND THE LIFE CYCLE**
- 9 Food Selection and Food Safety, 197**
Eleanor D. Schlenker
 Personal Food Selection, 197
 The Food Environment, 199
 Expanding the Food Supply: Biotechnology and
 the Consumer, 201
 Protecting the Food Supply: Regulation and
 Information, 202
 The Problem of Misinformation: Food and
 Health, 209
 Food Safety and Food Processing, 210
- 10 Community Nutrition: Promoting Healthy
 Eating, 223**
Eleanor D. Schlenker
 Nutrition and Public Health, 223
 The Ecology of Malnutrition, 225
 Community-Based Interventions, 226
 Family Economic Needs: Food Assistance
 Programs, 231
 Selecting Food in the Marketplace, 234
 Health Promotion, 238
- 11 Nutrition During Pregnancy and Lactation, 247**
Sharon M. Nickols-Richardson
 Maternal Nutrition and the Outcome of
 Pregnancy, 247
 Health Promotion, 249
 Nutritional Demands of Pregnancy, 250
 Weight Gain During Pregnancy, 256
 General Dietary Problems, 258
 High-Risk Pregnancies, 259
 Complications of Pregnancy, 261
 Nutrition During Lactation, 264
- 12 Nutrition for Normal Growth and
 Development, 274**
Sharon M. Nickols-Richardson
 Human Growth and Development, 274
 Nutritional Requirements for Growth, 276
 Stages of Growth and Development: Age-Group
 Needs, 277

- Health Promotion, 297**
Children and Adolescents: Seeking Fitness, 297
- 13 Nutrition for Adults: Early, Middle, and Later Years, 304**
Eleanor D. Schlenker
Adulthood: Continuing Growth and Development, 304
Adult Stages: Young Adult (19 to 40 Years), 305
Adult Stages: Middle Adult (40 to 65 Years), 307
Adult Stages: Older Adult (65 to 85 Years), 309
Older Adults at Nutritional Risk, 314
Health Promotion, 317
- 14 Nutrition and Physical Fitness, 325**
Staci Nix
Physical Activity, Modern Civilization, and Chronic Disease, 325
Body in Motion, 326
Nutritional Needs During Physical Activity and Exercise, 328
Nutrition and Athletic Performance, 331
Health Promotion, 336
Building a Personal Exercise Program, 336
- 15 The Complexity of Obesity: Beyond Energy Balance, 344**
Allan Higginbotham
Realities of Obesity, 344
Energy Intake, Energy Expenditure, and Development of Obesity, 345
Obesity as a Disease, 345
Beyond Energy Balance, 347
Epidemiologic Model, 348
Overview of Treating the Disease of Obesity, 351
Health Promotion, 355
- PART 3 INTRODUCTION TO CLINICAL NUTRITION**
- 16 Nutrition Assessment and Nutrition Therapy in Patient Care, 359**
Ritamarie Little
Role of Nutrition in Clinical Care, 359
Nutrition Screening and Assessment, 360
Nutrition Diagnosis, 373
Nutrition Intervention: Food Plan and Management, 374
Evaluation: Quality Patient Care, 374
- 17 Metabolic Stress, 378**
Joyce Gilbert
Nutritional Needs of General Surgery Patients, 378
Nutritional Concerns for Patients Undergoing Alimentary Canal Surgery, 385
Nutritional Needs in Thermal Injuries, 393
Health Promotion, 397
Immunonutrition, 397
- 18 Drug-Nutrient Interactions, 401**
Joyce Gilbert
Drug-Nutrient Problems in Modern Medicine, 401
Drug Effects on Food and Nutrients, 403
Food and Nutrient Effects on Drugs, 408
Nutrition-Pharmacy Team, 413
Health Promotion, 415
“The Pain Reliever Doctors Recommend Most,” 415
- 19 Nutrition Support: Enteral and Parenteral Nutrition, 419**
Pamela Charney
Nutrition Assessment, 419
Enteral Nutrition Versus Parenteral Nutrition, 424
Enteral Tube Feeding in Clinical Nutrition, 425
Enteral Tube Feeding Formulas, 427
Enteral Tube Feeding Delivery Systems, 431
Monitoring the Tube-Fed Patient, 434
Parenteral Feeding in Clinical Nutrition, 435
Parenteral Solutions, 437
Parenteral Nutrition Delivery System, 439
Home Nutrition Support, 440
Health Promotion, 442
Troubleshooting Diarrhea in Tube-Fed Patients, 442
- 20 Gastrointestinal Diseases, 448**
Dorothy Chen-Maynard
Digestive Process, 448
Problems of the Mouth and Esophagus, 451
Problems of the Stomach and Duodenum, 457
Disorders of the Small Intestine, 459
Disorders of the Large Intestine, 469
Diseases of the Gastrointestinal Accessory Organs, 473
Health Promotion, 478

- 21 Diseases of the Heart, Blood Vessels, and Lungs, 482**
Joyce Gilbert
 Coronary Heart Disease, 482
 Essential Hypertension and Vascular Disease, 496
 Pulmonary Diseases, 500
Health Promotion, 501
 Added Food Factors in Coronary Heart Disease Therapy, 501
- 22 Diabetes Mellitus, 504**
Joyce Gilbert
 Nature of Diabetes, 504
 General Management of Diabetes, 510
 Rationale for Diabetes Nutrition Therapy, 511
 Implementing Nutrition Therapy, 512
 Issues Related to Medical Therapy, 513
 Management of Diabetes Nutrition Therapy, 519
 Diabetes Education Program, 520
Health Promotion, 523
- 23 Renal Disease, 527**
Joyce Gilbert
 Basic Kidney Function, 527
 CHRONIC KIDNEY DISEASE, 528
 Pathophysiology of Glomerular Disease, 529
 Treatment of Chronic Kidney Disease, 529
 Nutrition Assessment of Patients with Chronic Kidney Disease, 531
 Altered Nutrient Requirements with Chronic Kidney Disease, 537
 Medical Nutrition Therapy, 539
 ACUTE RENAL FAILURE, 542
 UROLITHIASIS (CALCULI OR KIDNEY STONES), 544
 URINARY TRACT INFECTION, 546
 RESOURCES, 546
Health Promotion, 548
 Omega-3 Fatty Acids and Renal Disease, 548
- 24 Acquired Immunodeficiency Syndrome (AIDS), 550**
Adriana Campa, Irene Hatsu, and Marianna K. Baum
 Evolution of HIV and the AIDS Epidemic, 550
 Medical Management, 553
 Nutrition Therapy, 557
 Goals of Nutrition Therapy, 561
- 25 Cancer, 570**
Beth Kunkel
 Process of Cancer Development, 570
 Carcinogens and Cancer Prevention, 572
 Public Health Guidelines for Cancer Risk Reduction, 573
 Cancer-Related Health Disparities, 574
 Population-Based Screening Recommendations for Cancers, 575
 Postdiagnostic Staging of Cancers, 575
 Practice Guidelines for Treatment of Cancers, 576
 Treatment of Cancer, 577
 Medical Nutrition Therapy for Patients with Cancer, 578
 Alterations in Nutritional Status Associated with Neoplastic Disease Process, 581
 Complementary and Alternative Medicine (CAM), 581

APPENDIXES

- A Body Mass Index: Obesity Values (Second of Two BMI Tables), 587**
- B Food Sources of Oxalates, 588**
- C Calculation Aids and Conversion Tables, 589**
- D Cultural Dietary Patterns and Religious Dietary Practices, 591**
- E Federal Food Assistance Programs, 599**
