

# **Academic and Clinical Partnership: Model of Health Care Improvement**

Assoc. Prof. Nongnut Boonyoung, RN, PhD  
Dean School of Nursing  
Prince of Songkla University

# Thailand NCD

National Strategic Plan for NCD prevention and control  
2017-2021

Cerebrovascular disease 4.59 % or 28,000 cases

Myocardial infarction

Diabetes

Hypertension

Chronic obstructive lung disease

NCD

## Vision:

A country free of  
the avoidable  
burden of NCD

## Strategies:

1. Develop public policy and law that support prevention and protection of NCD
2. Expedite the social movement /communicate to the public regularly
3. Improve potential of people and community and all stakeholders
4. Develop the surveillance system and data management regarding NCD
5. Reform risk management system and NCD control align with the context
6. Develop supporting system for integrative implementation to reduce the NCD

**Vision of School of Nursing**

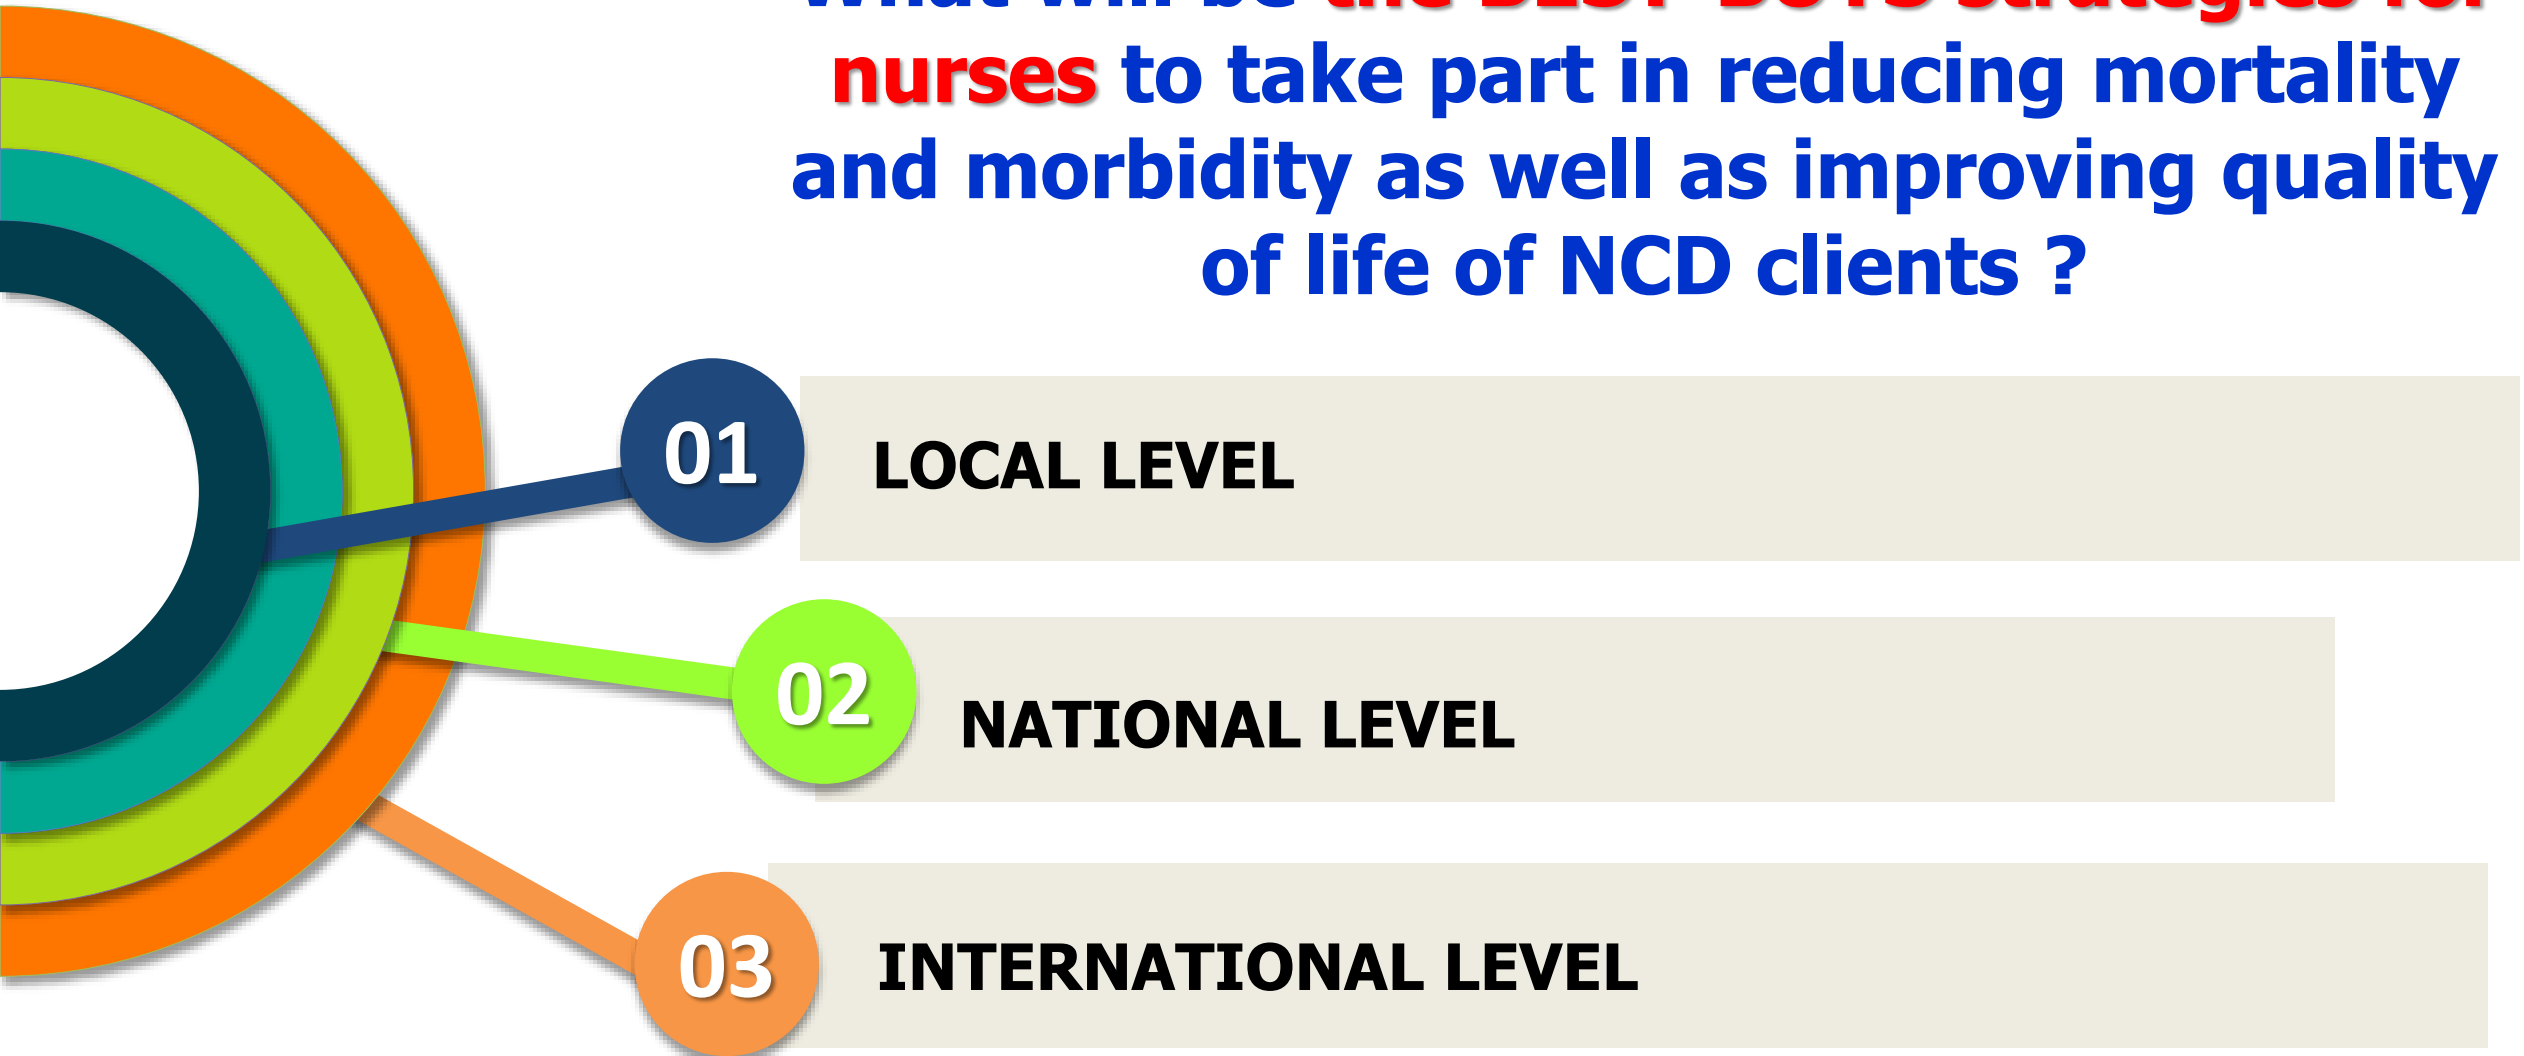

**Academic Excellence in Nursing**

**Integration Eastern Wisdom,**

**moving towards Globalization**

# Academic and clinical partnership: model of healthcare improvement

What will be **the BEST-BUYS strategies for nurses** to take part in reducing mortality and morbidity as well as improving quality of life of NCD clients ?

# Academic and clinical partnership: model of healthcare improvement

**01**

**LOCAL LEVEL AND LOCAL EASTERN WISDOM:  
MEDITATION, SAFETY FOODS, YOGA/PA...**

**Through educational program and being a partner with  
hospitals and community**

# Academic and clinical partnership: model of healthcare improvement

## Joint research - 08

Set up a joint research project, mentoring junior researcher for both parties

# Academic and clinical partnership: model of healthcare improvement

02

## NATIONAL LEVEL

2. Keep in touch with other  
Ministries such as Ministry of  
Public Health

Ministry of Education science and innovation  
Ministry of Social development and Human Security

4. Encourage more  
integrated research into  
practice both clinical sites  
and community sites

1. Be committee  
/representatives of Thailand  
healthcare assembly  
committee in order to **take** a  
nursing position /**get involve** in  
healthcare policy movement

3. Be able to identify and  
participate in healthcare  
mechanisms in reality from  
policy level to practice levels

5. Keep connection among  
health care policy, Health in  
All policy , healthcare  
system, social system,  
nursing service

# Academic and clinical partnership: model of healthcare improvement

03

## INTERNATIONAL LEVEL (CONT)

Dr. Tedros Adhanom Ghebreyesus

All roads lead to universal health coverage

Through international graduate programs both at master and doctoral program including Eastern Wisdom, Multicultural care, leadership and Obstetric Gynecology

Set initiative for idea of benchmarking for quality improvement joint research projects with sign MoU institutes

**Nursing profession** is currently in a right position as a major contributor for leading the NCD management

01

02

Encourage more collaboration in exchanging staff and students among nursing network globally

03

04

Consider/participate/follow the conference of the WHO SEA Regional Forum to Accelerate NCDs Prevention and Control in the Context of SDGs

*Thank you*

For your attention
